**DETAILED ACTION**

***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, and 9 drawn to an apparatus for preparation of oil and water emulsion with post added ingredients

Group II, claim(s) 5, drawn to a method of preparing oil and water in a batch method.

Group III, claim(s) 6-7, drawn to method for preparing oil and water utilizing a mixer.

Group IV, claim(s) 8, drawn to method for preparing dressing.

2. The inventions listed as Groups I, II, III, and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The common feature between the groups are to a provision of ingredient reservoir and the provision of a post added ingredient reservoir with a mixer point and a dispenser point of the final product. This common feature of the claims is not an contribution over the prior art as evidenced by US 6,280,075.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the

requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.
